

# Van Morrison, Country Fair

We stood and watched the river flow  
We were too young to really know  
In the country fair  
Oh, in the country fair

We laid out in the long green grass  
And never thought that it would pass  
In the country fair  
In the country fair

On an old, on an old open day  
On an old rainshine open day  
In the country fair  
In the cool night air  
In sweet summer time

We counted pebbles in the sand  
Sand like time slippin' through our hand  
In the country fair  
In the country fair

On an old, on an old open day  
On an old raintrack open day  
In the country fair  
In the cool night air  
In sweet summer time

Hmmm mmmm  
On an old open day  
On an old  
Pinecone open day
