

# Vanessa Williams, Let's Love

It takes L  
And a O  
And a V  
And a E  
It takes you  
It takes me together  
Huh, let's love  
We've only got a day  
Huh, let's love  
To pass the time away

I've only known you for a moment  
But I love you so desperately boy  
If it wasn't the things people say now  
You would be making love to me  
Alright

It takes L  
And a O  
And a V  
And a E  
It takes you  
It takes me together  
Huh, let's love  
We've only got a day  
Huh, let's love  
To pass the time away

They say that I'm cruel, that I'm evil  
But how else can a starving girl be  
If you wouldn't listen to what they say behind my back now  
You would be making sweet love to me

It takes L  
And a O  
And a V  
And a E  
It takes you  
It takes me together  
Huh, let's love  
We've only got a day  
Huh, let's love  
To pass the time away

Love on me  
Have let me love on you understand  
That's the natural thing to do  
Stop listening to what people say boy  
Start making sweet love to me  
Let's do it  
Please do it  
Even you and me can do it  
That's really nothing to it if you love me  
Huh, let's love  
We've only got a day  
Huh, let's love  
To pass the time away

Let's fall in love  
You know we've only got one day, child  
We should be making sweet love  
To pass the time away

It takes L

And a O  
And a V  
And a E  
It takes you  
It takes me together  
Huh, let's love  
We've only got a day (so we've only got one day)  
Huh, let's love  
To pass the time away (pass the time away)

Ready  
Let's do it  
Please do it  
Let's do it  
Let's go and do it  
Let's do it
