

# Vanilla Ninja, Don`t Goo To Fast

Destination nowhere land  
Let us find a place where heartaches end  
It's good to hold you tight  
Just make me surrender  
Come on in and find out baby  
We got time and hope and dreams enough  
So don't you hurry love  
Oh baby babe don't go too fast  
Feel the rhythm of my heart  
Don't you go for everything  
I'm not a puppet on a string  
Baby babe don't go too fast  
Play it cool and make it last  
Baby let your feelings flow  
Just take it easy - get it slow  
Love can be so beautiful  
Feel the rhythm of my heart  
It's a now or never - night&quot;  
Baby don't you try to break my pride  
I've got magic words:  
Together forever  
Take away the spell of darkness  
Baby come into my world of fears  
To kiss away my tears  
[Chorus]  
Hey  
Take a chance on me tonight  
Baby look inside of me - (and) you'll see  
The flames of destiny  
[Chorus]
