Varsity Fanclub, What I Really Want To Say

I say I don't care

But it makes me crazy when you're not there

I say I don't need you next to me

Say I don't need your touch

Say I don't need that much

Say this love don't mean a thing

Wha I really wanna say is you stay on my mind

And I die everytime, that you're not around me

What I really wanna show you is what's in my heart

But I stop when I start, keep it locked inside me

What I really wanna do is just scream it out loud

Get the message through

What I really wanna say is I love you

I say I can live without you

But my mind's all tied up in thoughts about you

I say I wont let you get to me, yeah, yeah, yeah

But everytime I'm with you

I get so caught up in you

Say this love aint what I need

Wha I really wanna say is you stay on my mind

And I die everytime, that you're not around me

What I really wanna show you is what's in my heart

But I stop when I start, keep it locked inside me

What I really wanna do is just scream it out loud

Get the message through

What I really wanna say is I love you

Why can't I say what I'm thinking

Why must I hide what I'm feeling

I'll tell you what I'm feeling now

Wha I really wanna say is you stay on my mind

And I die everytime, that you're not around me

What I really wanna show you is what's in my heart

But I stop when I start, keep it locked inside me

What I really wanna do is just scream it out loud

Get the message through

What I really wanna say

What I really wanna say

What I really wanna say now baby

What I really wanna do now baby, baby, baby, baby

What I really wanna show

What I really wanna say

What I really wanna do is just scream it out loud

Get the message through

What I really wanna say

What I really wanna say
