

Vaughan Penn, Almost Perfect

There's a reason for the situation
It's amazing, the shocking revelation
Love is crazy, it's got me upside down
It's got me upside down

Well life hits you and love gets you
You just gotta go with the flow

Everything is almost perfect here
The reason is coming crystal clear
I think I really dig this atmosphere
It's almost perfect here

If you give in, don't let it freak you out
'Cause you're the one thing I've got this thing about
It's this emotion it's got me inside out
It's got me inside out

Well life hits you and love gets you
You just gotta go with the flow

Everything is almost perfect here
The reason is coming crystal clear
I think I really dig this atmosphere
It's almost perfect here

It's almost perfect here
