

# Vaughan Penn, If You Could See

You're lucky when love comes your way  
You're lucky in every single game you play  
But you think  
It's almost Judgment Day  
You should be smiling while the world is throwing roses at your feet  
When are you gonna believe

(Chorus:)  
If you could see you  
Like I do  
Like I do  
If you could see you  
You'd see everything's gonna be alright  
If you could see you  
Like I do  
You wouldn't have to cry  
If you could see you

Time has been through your side  
But time has been taking you for a long hard ride  
So I better send every single bit of love tonight to you  
You should be smiling while the world is throwing roses at your feet

(Chorus)  
If you could see you like I do  
If you could see you like I do like I do  
You should be smiling while the world is throwing roses at your feet  
Roses, roses, roses at your feet  
Roses  
If you could see you like I do you wouldn't have to cry  
If you could see you  
Like I do  
Roses at your feet
