

Vega 4, Our Today

There's no tomorrow
just this moment in our lives
we packed a suitcase full of dreams
so catch a comet tail
sometimes we're all afraid to cry
but i know we'll be alright
this is our today
it's so beautiful
i hope it lasts forever
like the music in our heads

the tie that holds you down
has come undone and you can hear
little angels in your mind

this is our today
it's so beautiful
i hope it lasts forever
like the music in our heads

this is our today
it's so beautiful
i hope it lasts forever
like the music in our heads
