

Venke Knutson, I Wonder

There were times we used to share
There were times we used to walk around
All the joy that life would bring
We could laugh at anything
But now I'm all alone...

I wonder where you are
I wonder how you feel
So tell me what to do
To get back close to you
Now I need to find a way
Or just the word to say
I want you here with me
Back where we used to be...

I walk the streets alone
And everything I see reminds me of you
Your precious voice is in the air
Oh how I wish that you were here
So I could hold you once again...

I wonder where you are,
I wonder how you feel
So tell me what to do
To get back close to you
Now I need to find a way
Or just the word to say
I want you here with me
Back where we used to be...

You would hold me
You never made me sad
And you gave me feelings
I never knew I had.. oooh...

All the joy that life would bring
We could laugh at anything
But now I'm all alone...

I wonder where you are,
I wonder how you feel
So tell me what to do
To get back close to you.
Now I need to find a way
Or just the word to say
I want you here with me
Back where we used to be
Back where we used to be...
