

Venus In Flames, Heart And Bones

Lover tell me where are you before I lose my mind
Can you tell me where's your hiding place that's so hard to find
And you said one rose one thought of love
Well your whole bouquet is drifting around in my mind
Around in my mind

And the roses fully grown
Are they ready to explode
Will they break through heart and bones
Well I shouldn't be there when you go
The whole damn world is going down tonight
Down in my mind

Lover take my mended heart that was so hard to find
Can you tell me how you're going to leave your only friend behind
And you said I shouldn't be thinking of you
Well I can't seem to get you out of my mind
Out of my mind

And the roses fully grown
Are they ready to explode
Will they break through heart and bones
Well I shouldn't be there when you go
The whole damn world is going down tonight
Down in my mind

And I always knew this day would come
There's no other way things could've been done
Tell me is it right when it feels wrong
I guess we haven't learned anything at all
about heart and bones
