

Victoria Monét, Better Days (Feat. Ariana Grande)

Baby, there's a war right outside our window
Don't you hear the people fighting for their lives?
Baby, there's a war right outside our window
But it's going be alright as long as I got you with me

In your arms, I find my shelter
Deep in your love I will hide
Baby, you and me stop the world when we're together
You'll find a way to take my mind

Hoping for better days, better days
Days when things were better
Hoping for better days, better days
Need some better days
Hoping for better days, better days
Days when things were better
Hoping for better days, better days
Need some better days

I can hear the sirens right outside our window
And I can hear the children crying while their mothers cry
I'm praying for the people right outside our window
Hoping they find peace at night, just like you and me

In your arms, I find my shelter
Deep in your love I will hide
Baby, you and me stop the world when we're together
You'll find a way to take my mind

Hoping for better days, better days
Days when things were better
Hoping for better days, better days
Need some better days
Hoping for better days, better days
Days when things were better
Hoping for better days, better days
Need some better days

So how we gonna stop the violence?
Stop the hurting?
Stop the hatred, stop the murder
We're all human - that's for certain
Come together - we deserve it
What kind of life will our babies have
If we don't change up and make it last?
It starts right here, starts right now
We'll love and hope for

Hoping for better days, better days
Days where things were better
Hoping for better days, better days
Good ole better days
Hoping for better days, better days
Days when things were better
Hoping for better days, better days
Good ole better days

Better days, better
