

Viki Gabor, 3:30

I heard so much about you
Thought you was the one for me
But I guess it switched up so easily
Can't believe them things that you said to me

And I know I was wrong but I kept it going on
Was this thinking
I just thinking how'd you tell me wrong
Now you ended up alone
Say bye bye to the one
I used to know

I love the butterflies
Butterflies you gave me
But I won't fall this time
Can't help but try
To hold you by my side

Please don't call me, no
Baby I won't answer the phone
3:30 and you still going on
Now I'm busy
I can't help it no more, no

Please don't call me, no
Baby I won't answer the phone
3:30 and you're still going on
Now I'm busy
I'm busy oh, yeah
Just see I'm busy oh, no, yeah

I heard so much about you
And I thought you was the one for me
Chilling with your boys
I know that it's crazy
Lipsticks and chill that's what we are
Baby Listening
It's a pretty girl emergency

Blowing up my life
Feelings going crazy
Yeah yeah yeah
You blew you chance away
And now you wanna stay
Baby, no,no,no,no,no, yeah

Please don't call me yeah
I know you want me
You wanna love me
But you can't have me, no,no,no
See my phone's on DND
Too late for all of this
I put you at the top
And you blew it off now

I got time for me
And I ain't listening
No,no,no,no so I'm saying

Please don't call me, no
Baby I won't answer the phone
3:30 and you're still going on
Now I'm busy
I can't open no more

Please don't call me, no
Baby I won't answer the phone
But you can't hurt me
And you're still going on
Now I'm busy
I'm busy, ey
