Viki Gabor, Could Be Mad

Hey yeah, Hey yeah, ohh Hey yeah, Hey yeah, ohh

Everyone's in a while Think about the time when I made love you promise We are important and mine

I tried to tell you that
I needed you
But you did something
Cannot do you show me then
And something happen
Do you know?

And I would like you to know Do you know? Do you know? And it's nice And I lay without you

I could be mad
Could be better
(00000)
I don't do it lairs
I don't do it lairs
I don't it's litter bigger
(00000)
You can have life back
But I don't wanna get sad track

Hey yeah, Hey yeah, ohh Hey yeah, Hey yeah, ohh

A some halo Can't believe you left to me But you do see the layers Make you so ugly, so ugly

And now is never I guarantees When you trust someone so easily I love my lesson I will be more careful, careful

And I would like you to know
You to know
You to know
And it's nice
And I lay without you
Without you, without you, without you

I could be mad
Could be better
(00000)
I don't do it lairs
I don't do it lairs
I don't it's litter bigger
(00000h)
You can have life back
But I don't wanna get sad track

I could be mad, could be better (I could be mad, I could be) (I could be mad) (I could be mad, I could be) (I could be mad, I could be) (I could be mad) 0000
