## VINCE GILL, We Had It All

(Vince Gill)

We closed down the Border Cantina
And drank margaritas till dawn
You were my sweet senorita
And I was your handsome Don Jaun
We danced like there was no tomorrow
We laughed and we lived and we loved
That moment in time that we borrowed
Never did last long enough

## [Chorus:]

Yeah, we had it all going our way for a little while We had it all right in the palm of our hands We had it all going our way for a little while Oh, how I wish we could go back there again

We thought we were too young to marry Slowly we drifted apart Well baby, I miss you like crazy Those memories still burn in my heart Oh, let's find a way to rekindle That flame that burned long ago These days just can't hold a candle To those sweet nights in old Mexico

## [Chorus 2x]

Yeah, we had it all going our way for a little while Oh, how I wish we could go back there again Oh, how I wish we could go back there again
