

Viola Beach, Swings and Waterslides

Feeling a lighter breeze, the sun it shines on all you see
You squint trying to look at me, can I use your lighter please?
You're not with me tonight and only you can make it right, you know that we could be
You know that we could be eyes wide, bright light, time flies, feels right
You know that it'd be nice, you know that we could be night time, sky high, eyes like we've cried
But we've not, and all I wanna know is
Won't you come home
Won't you come home
Won't you come home
Won't you come home
Cause I need you home
Yeah I need you, oh you know I do
It's summer all the time with you, you make me feel alright
All Swings and Waterslides and summery and pretty high
I'd like to watch the tide come in and then go out at night with you
You know that we could be, you know that we could be eyes wide, bright light, time flies, feels right
You know that it'd be nice, you know that we could be night time, sky high, eyes like we've cried
But we've not, and all I wanna know is
Won't you come home
Won't you come home
Won't you come home
Won't you come home
Cause I need you home
Yeah I need you, oh you know I do
Yeah I need you home
Yeah I need you, oh you know I do
