

# Viper, Do It All Again

Im not the hours that Ive lived  
Im the love and pain deceived  
Im the moments that define them all

I decide who it should be  
From beginning to end  
I love life to heal my heart and soul  
And do it all again

Real life breaks all my dreams  
Nightmares wash away my sins  
Cant you see, Im not the one to blame

Just my heart knows when it ends  
Sorry not to tell you friend  
Now is the time to rule the world  
And do it all again

A little bit of a little sin  
Wasted time will kiss my lips  
Ill do it all again

A little weak, a little freak  
Ill cross the world to kiss your lips  
Ill do it all again
