

# Viva Voce, So Many Miles

Open your eyes, it's time to begin  
A lesson in lies, from fair weather friends  
So let's take a drive, the road never ends  
With so many miles between us again

And if they come by, don't let them in  
I'm weary, but wise of fair weather friends  
So don't be surprised, the places we've been  
Or how many miles between us again
