

Vivian Green, Damn

[chorus]

you know i really loved you baby, but you had to ruin everything.
now im not gonna cry im just sayin' we could have been good together, damn
you know i really loved you baby, but you had to go and ruin everything.
now im a big girl im just sayin' we could have been good together, damn

so tired of waking up to your voice on my answerin' machine.
sayin' the things that two years ago you could never say to me.
you must've called pretty late, you know im asleep, and you're ashamed to talk to me.
and ashamed you should be cause you treated me so badly when i loved you

[chorus]

you say you miss me you love me i have moved forward you have moved back and why.
you realized you made the biggest mistake well babe it's to late cause
i...
am happy right now no aint got a man just happy with my damn self
and i admit i loved you baby but i aint crazy and dont want you back

[chorus]

it's so very nice to see that you developed a conscience
over the years i accept your apology
but no i dont want you back why couldnt you see it then,
is it because you werent ready?
but my world dont revolve around you only me.....

[chorus]
