

W.A.S.P., One Tribe

Gimme peace, gimme hope
Gimme love, love
Just one life to be free
Just one world live in peace
One love, love

Cause in a sea, feed my soul
Save one world, save us all
One love, love

Lift my hands, raise my heart

I touch the sky, the face of God
Rain all your love down on us all

Show me peace, show me love
I'll still see only one
One love, love

Rain you love down on me
Fill my soul, set me free
Give me love, love
