

W.A.S.P., Run To The Future

Spending all my time to make it right
Push me always to the limit
Try to make it better all my life
Living for the music

Every day you're gonna find the way
Every day we're gonna run to the future
Anyway I wanna save the day

Every day we're gonna run to the future

I don't wanna keep on walking around
Looking for my real true nature
Try to make things better all the time
Leaving with the music
