

# W.A.S.P., Show No Mercy

I, I hear the mighty engines roar  
And I unleash the savage dogs of war  
Ooh, I'm the outlaw that rides

White anglo saxon, a violent reaction  
Fire is my fuel, steel and iron rule

Ride on wasteland  
A madman's badland  
Ride on wasteland  
And I will survive to show no mercy

I can feel the cycles as they turn  
And I can smell the bodies as they burn  
Ooh, the city's on fire

White anglo saxon, a violent reaction  
Fire is my fuel, steel and iron rule

Ride on wasteland  
A madman's badland  
Ride on wasteland  
And I will survive to show no mercy

Pain and hunger all across then thunder  
Life is for the biggest, it's survival of the fittest

Ride on wasteland (show no mercy)  
A madman's badland (on you)  
Ride on wasteland (show no mercy)  
A madman's badland (on you, on you, on you)
