

# W.A.S.P., Teacher

Will ya let me learn you something  
Oh I will, indoctrinate your mind  
Wont ya let me be your love your mother  
The greatest of all time  
On your knees confession your obsession  
I'll dominate you dark  
I gave you hell to take you to heaven giving you  
Star spangled hearts

In the time end oh you've learned nothing my brother  
Teacher to your kind  
Oh independence one (won) you nothing but a  
Sudden death in overtime  
Salute the flag's oppression your blessing  
I got a bigger gun  
Than all you fucking beggars all ya put together  
I'm uncle Sammy's son

I will be your teacher baby  
I will be your flame  
Slide to reach you maybe  
I won't know no shame

I will be your teacher preacher  
On your knees and you pray  
Father of your addiction, tell me  
Am I the one that you'll blame
