

# Waken Eyes, Deafening Thoughts

Breathe.....this cold and piercing dream  
It shelters me  
Soundless and still, holding me down  
I endlessly drown

Look in her eyes  
Misery and hate coincide  
Feeding her fear, it's constantly near  
Leaves her so powerless yet whole  
Sinking, slowing down, vertigo  
Walk with the slaves  
As they broadcast illusions obey

I'm so sleepy, in this blissful misery  
Withdraw this feeling of doubt  
Open your eyes and unfold

Slow down, slow down  
He hungers, feed on your soul  
This sickness, is breaking me down

Look in her eyes  
Misery and hate coincide  
Feeding her fear, it's constantly near  
Leaves her so powerless yet whole  
Sinking, slowing down, vertigo  
Walk with the slaves  
As they broadcast illusions obey

Look in her eyes  
Misery and hate coincide  
Feeding her fear, it's constantly near  
Leaves her so powerless yet whole  
Sinking, slowing down, vertigo  
Walk with the slaves  
As they broadcast illusions obey

Open your eyes
