

# Wanda Jackson, I Wouldn't Want You Any Other

I can't put my finger on this love of ours life with you keeps changing every day  
One minute you're all sunshine and the next you turn to showers  
But I wouldn't want you any other way  
I've been through your crazy moods so many times  
More than once I've been the one who pays  
Oh but nothing really matters just as long as you are mine  
Cause I wouldn't want you any other way  
When you touch me when I'm sleeping I wake up at heaven's door  
And I kiss you on the pillow where you lay  
With your arms around me tightly I could ask for nothing more  
And I wouldn't want you any other way  
With your arms around me tightly...
