

# Wanda Jackson, My Baby Walked Right Out On Me

My baby just walked right out the door he said he wasn't comin' back no more  
Well I hope he's happy now he's free my baby just walked right out on me

But I saw it comin' for some time should have known he'd never be mine  
Lonely nights are all that's left in sight wish I had him back with all my might  
I hope he's happy I'll never be my baby just walked right out on me

( guitar )

But I saw it comin' for some time...

My baby just walked right out the door...

My baby just walked right out the door...
