

# Wanda Jackson, You Won't Forget (About Me)

Now that our love is through you know I still love you  
But now I think I see you just weren't meant for me  
You found another love the kind that's wild and free  
But I'll promise you one thing you won't forget about me  
My heart was young and foolish so much I had to learn  
A heart can't just be in love it's gotta be loved in return  
They'll only laugh and say I guess you'll learn someday  
But your heart's still wild and free you won't forget about me  
( steel - fiddle - guitar )  
My heart was young and foolish...
