Warcloud, Plunder

Artist: Holocaust
Album: Blue Sky Black Death presents The Holocaust
Song: Plunder
Typed by: Cno Evil

(Chorus 2X: Holocaust)
'Born of the Sun', I crashed to the Earth
Tormented, reviled, I blast from the church
The threshold's in flames, the West Coast is claimed
My flesh jolts in chains, your chest opens plain

(Holocaust)
The kingdom of bang, Cherokee war dance of flame
I 'Plunder', take you under to a world untamed
Inside the world of all casinos and dames, the War Machine
Something moved in the graveyard, I break your back frame
How many fingers do you have? Ten, I murdered five men
Yo, but these men were grim, on a microphone grin
The Night Thrasher, deception the king, I bring disaster
Dark telepathy in decrepit Indian wasteland, the gun blaster
'Dark City', in the park late night with something pretty
Scars Satan, several sugars, suspenseful tear
The monarch gritty, 'Splinter Cell', graveyard sleepwalker
I rise from the terrorises of dark to creep harder

(Chorus 2X)

(Holocaust)
Out of the darkness came one of triple dark mind gun
Hooded Desert Eagle footage, learn the risk, burn the witch
Crushed deep in the bone to take Satan's throne
Empire's so clever stitched, fire forever, bitch
Odd job plus modest as an eel, punk
Here they come, these gods and goddesses of steel
Los Angeles mega real, he who guns, devouring what's concealed
His blood passes through the pulmonary artery
Pass the bone, 'Twilight Zone' Holmes, cuts deep into bone
These bullets very honestly amp vampire harm
Wyatt Tongue, die of charm, ka-pow
Documentary and live footage of a fucking firearm
See blood's on the wing, vengeance you'll bring
Too fast to give a damn, there's evil about the land
The threshold's in flames, the West Coast is claimed
My flesh jolts in chains, your chest opens plain

(Chorus 2X)
