

# Warhammer, The Void Inside The Darkness

(Lyrics by Volker Frerich)

Welcome to the new age of terror  
Hatred's here like you've never seen before  
The madness has settled over to stay  
What we can't stand, we kill anything that's in our way

Decadence defines the existent chaos  
Trapped are we with ruthless servants  
The image in the mirror is weakened  
Watch as life in every form is cheapened

Emotions are frozen in the blink of an eye  
The sky has to burn, I forgot the reason why...  
My memories are fading, what started this insanity?  
Walk with me through the forest of morality

We've passed the chapter of chaos just this second  
Silence outside - I'd like to dwell in this moment  
When emptiness is your longtime companion  
You lose yourself in everlasting oblivion...
