Warner Mack, Let's Get Back Down To Earth

Well this ol' world is a gettin' worse and worse every day People livin' up above their heads and makin' bills that they can't pay Their jealous of their neighbors and it's been like that since birth So come on down and get your feet on the ground let's get back down to earth Let's get back down to earth and live with the common people Then we won't be so meserable when we get old and feeble Now let's be honest with ourselves we all know what we're worth So come on down and get your feet on the ground let's get back down to earth

When we all come to this ol' world we didn't bring a thing And when we leave this ol' world we're gonna take the same Now you know better than I am when the man says dirt to dirt So come on down and get your feet on the ground let's get back down to earth Let's get back down to earth...

Yeah neighbor

Come on down and get your feet on the ground let's get back down to earth
