

Warrior Soul, Superpower Dreamland

(Clarke)

We come through the windows We bust down the door
We cut through the ceilings And pop up on the floor

The children are angry And they come pouring in
Were searching for justice From our governments

In every face in this place I see trouble
In every face in this place I see trouble

Lets rumble

We tear down the paintings We tear down the sculpture
You call it destruction Yeah, but thats what ya taught us

Busted dreamland The country roots
This is your payback For three trillion bucks

In every face in this place I see trouble
In every face in this place I see trouble

If any pigs outside Do not hide we will rumble
In every face in this place I see trouble

Lets rumble

Superpower dreamland 8 X
Its a superpower dreamland Youre livin in a dreamland
A superpower dreamland A superpower dreamland
