

Waylon Jennings, Same Old Lover Man

(Gordon Lightfoot)

I'm not some long lost someone
Just dropped in to say hello
I'm the same old lover man
Baby, lost so long ago.
'Cause I was born to believe
I never could deceive, believe me.

I hear no children's voices
Have they gone back to school
It's the same old lover man
Baby, still actin' like some kinda fool.
Yes, I was born to believe
I never could deceive, believe me.

--- Instrumental ---

It's cold outside your window
Please let me in the night is wild
I'm the same old lover man
Baby, not some lonesome innocent child.

Yes, I was born to bring a grief
Though I never was a thief
I'm the same old lover man
Baby, just dropped in to say what's new.

Yes, I was born to bring a grief
I never could deceive, believe me...
