

Weezer, Broken Arrows

Every hour
every day
since you've gone far away
it's a rough canopy of dreams
and broken arrows
and broken arrows

baby don't you know, know
get in the car just before we go
we go
we go

every hour
every day
though it seems far away
it's a last chance to be with you
and heal your heart ache
and heal your heart ache

and baby don't you know, know
get in the car just before we go
we go
we go

and after all that we couldn't taste
we turn to you and say this the way
we have no mind we have to find
I need love
I need love

Baby don't you know, know
get in the car just before we go
we go
we go

Every hour
every day
every hour
every day
