

# Weezer, It's All Here In This Book

I understand the need to feel love  
But this time you've gone way too far  
And now you believe that everyone's bad  
And everyone's evil inside  
I don't understand how you can think that way  
'Cause there is a book and it says that this is all true

I understand the need to feel safe  
But this time you've gone way too far

It's easy to see when you believe  
That we're all so evil inside  
There are so many that want you to think that way

'Cause there is a book and it says that this is all true  
Yes there is a book and it says that this is all true  
There is a book and it says that this is all true  
Yes there is a book and it says that this is all true
