

# White Kaps, Dug That

Taking life slow and taking it easy  
You wanna be like me but you can't be sleazy  
Life goes quick and life goes fast  
Everybody wants a good thing to last  
Take care of yourself and try to act old  
You've got no balls and you've never been bold  
Why - People are weird  
Why - Ones that you feared  
Why - Who have you cursed  
Why - Who dies first  
I've already been there and I've already dug that  
I've already been there and I've already dug that  
I've already been there and I've already dug that  
I've already been there and I've already dug that  
Been there - Oh yes I've seen this and I've seen that  
Been there - Oh yes I've dug this and I've dug that  
Been there - Oh yes I've fought this and I've fought that  
Been there - Oh yes I've drank this and I've drank that  
Been there - Oh yes I've fucked this and I've fucked that  
Been there - Oh yes I've drank this and I've drank that  
And I've been there before  
It's time to say bye cuz it's time to go  
You wasted your life you didn't star in your show  
You took no risk and you've took no chance  
We've played the music but you didn't dance  
Don't take your life so slow because your life goes by fast
