

# White Skull, Mountain's End

Cloudy sky and rainy day  
it's the feeling deep inside  
I'm wet and dirty in this mood  
at the mountain's end domine  
It's raining and raining and raining hard  
I got nothing in my hands  
I'm washing away the drops in my face  
at the mountain's end domine

(chorus)  
In every nightmare  
I try, try to get you  
In every day dream  
I try, I try to get closer

I'm just a woman who believes  
in real love and fantasy  
I've found myself in this sickness feel  
It's the darkness of all human beings  
I just need a family  
little things all around me  
I'd like to run around somewhere  
'cause time's ticking inside my head

(chorus)  
In every ...

Oh this time  
we'll be living at the mountain's end  
Cloudy sky and rainy day  
it's the feeling deep inside  
I'm wet and dirty in this mood  
at the mountain's end domine  
It's raining and raining and raining hard  
I got nothing in my hands  
I'm washing away the drops in my face  
at the mountain's end domine

(chorus)  
In every ...

Oh this time  
we'll be living at the mountain's end
