

# Why Don't We, Something Different

[Verse 1: Daniel Seavey & Zach Herron]

Look at us  
We could paint a perfect picture  
About us  
From you head to toe I'll fit you  
They follow us  
Yeah we make 'em think It's fiction  
They believe it so I guess it must be real

[Pre-Chorus: Jack Avery & Jonah Marais]

I can read your mind  
I know what you're thinking  
I could spend my time  
Feeling all the reasons  
What they know about us  
Doesn't make a difference  
Baby, we got us  
We on something different

[Chorus: Corbyn Besson]

We on something, something, some  
We on something different  
We on something, something, some  
We on something different  
We on something, something, some  
We on something different  
We on something, something, some  
We on something different

[Verse 2: Daniel Seavey & Zach Herron]

In a rush  
Even though we young, we flexin'  
We fall in love  
About a hundred times a day  
Like it's not enough  
Yeah we make 'em think it's fiction  
They believe it so I guess it must real

[Pre-Chorus: Jack Avery & Jonah Marais]

I can read your mind  
I know what you're thinking  
I could spend my time  
Feeling all the reasons  
What they know about us  
Doesn't make a difference  
Baby we got us  
We on something different

[Chorus: Corbyn Besson]

We on something, something, some  
We on something different  
We on something, something, some  
We on something different  
We on something, something, some  
We on something different  
We on something, something, some

We on something different
