

# Widespread Panic, Dream Song

Take your sleep  
You will dream anything  
You know you will  
Because you've lived  
So many dreams before  
Take your sleep

Take your dream  
You'll see anything there  
Well you know you will  
Because you've lived  
So many times before  
In your sleep

Wake up in your dream  
You can do anything there  
Well you know you will  
Because you've been so many before  
Take your dream
