

# Widespread Panic, Waker

My name is the Waker  
And I'm bringin' you the morning sun  
I've pushed the old man up forever  
Still I feel I've just begun

I've just begun

My name is treetop  
And I'm higher than you'll ever be  
I'm married to my roots here  
Still I feel like I am free

Feelin' I'm free

My name is blue sky  
And I'm bluer than all of you  
I've watched you run around forever  
Always searching for something new

There's nothing new

Feelin' I'm free

I've just begun

I'm always young

Love's always new
