

wigwam, Bless The Night

You want me to stay forever
Love you for worse and better, oh
Well i have my doubts about it
Tomorrow is another venue
Another city, a new hotelroom, oh
And i just can't live without it
Reach out and catch the moment
This heart of mine was made for touring

Bless the night, its now or never
You and i, and tons of pleasure
Bless the night
Enjoy the moment with me (me)
Bless the night, its now or never
You and i, close together
Bless the night
Enjoy the moment with me

A broken heart is what i offer
And i'm not worth a life in torture, no
Your happier without it
So baby put your arms around me
Save tonight in your minds diary, oh
Eat me while you have me

Bless the night, its now or never
You and i, and tons of pleasure
Bless the night
Enjoy the moment with me (me)
Bless the night, its now or never
You and i, close together
Bless the night
Enjoy the moment with me

A broken heart is what i offer
I don't wanna see you suffer
Tonight i wanna be your lover

Bless the night, its now or never
You and i, and tons of pleasure
Bless the night
Enjoy the moment with me (me)
Bless the night, its now or never
You and i, close together
Bless the night
Enjoy the moment with me
Bless the night....
Bless the night....
Bless the night....
