

Will Young, Joy

My hands are in the air and I'm running as fast as I can
I knew this day would come and we would be free
Come and hold hands lets stick together
Take a big leap and jump right over

We feel Joy...
We feel Joy...
Nothing really matters we've got everything we need
Take a big leap we will feel joy

When the wave hits there's nothing that we're gonna do
Make piece with yourself and take a little breath or two
Come and hold hands lets stick together
Take a big leap and jump right over

We feel joy...
We feel joy...
Nothing really matters we've got everything we need
Take a big leap, we will feel joy
We will feel joy
Joy
We will feel joy
Nothing really matters we've got everything we need
Take a big leap, we will feel joy

Nothing really matters we've got everything we need
Take a big leap and we will feel joy
Joy...
We feel joy...
We will feel joy
Nothing really matters we've got everything we need
Take a big leap and we will feel joy
