

Will Young, Love Revolution

I'm telling you, open up
So once I think
This love revolution
It's beautiful, feel the air
It's getting warm in here
This love revolution
Happiness and loneliness
Happiness and loneliness

Happiness is to feel loneliness
And loneliness blew my world
How could I guess
When I'm only looking at myself
It was there right at the door
Then happiness is to feel loneliness
And loneliness blew my world
How could I guess
When I'm only looking at myself
It was there right at the door

I'm telling you, open up
Now things have changed
It's a love revolution
Air in my booze
Get out my way
Record I'm strong
Happiness and loneliness
Happiness and loneliness

Happiness is to feel loneliness
And loneliness blew my world
How could I guess
When I'm only looking at myself
It was there right at the door
Then happiness is to feel loneliness
And loneliness blew my world
How could I guess
When I'm only looking at myself
It was there right at the door

This rocket fuel, is giving you
Take us to the moon now
It's a love revolution
It's a love revolution
