

# Within Temptation, World Of Make Believe

[Bonus track]

On golden wings  
She flies at night  
With her dress  
It's blinding white  
Countless diamonds  
And her long blonde hair  
The queen is coming  
So you better be aware  
Her plums and flowers  
They're never the same  
Blue and silver  
It's all her game  
Flying dragons  
And enchanted woods  
She decides, she creates  
It's her reality

[REF:] In her world of dreams and make believe  
She reigns forever  
With all her glory

Unicorns appear in her sight  
The fireflies lead her through these woods at night  
In search of the legendary amulet  
And it's secret  
In the big oak there is a door  
Which will lead her  
To the wizard shore  
And she'll ask him  
For the wind to sail her home  
To the world where she belongs

[REF:] In her world of dreams and make believe  
She reigns forever  
With all her glory  
In this world of endless fantasy  
She makes it happen  
It's her reality

She reigns forever  
With all her glory  
In this world of endless fantasy  
She makes it happen  
It's her reality
