

# Wiz Khalifa, Handle My Biz

Hey Wiz, they tryna lock a nigga up  
How many grams they asked you you had?  
What you tell 'em?  
28 right?

Bad bitch come to my crib, handle my business  
Let a nigga know shit's real, handle my business  
Handle my business, nigga, I handle my business  
Handle my business, nigga, I handle my business  
Smokin' pounds of kush, handle my business  
Ridin' in a brand new car, woosh, handle my business  
Handle my business, handle my business, handle my business

Smokin' on the kush, ridin' in a brand new whip  
Feelin' like a pimp  
Damn my money good  
I wish a bitch nigga would, I wish a bitch nigga would  
Handle my business, I'mma handle my business  
Handle my business, I'mma handle my business  
Handle my business, got a handful of Benji's  
Hand on the strap, I'mma handle that witness  
I'mma handle that car, I'mma handle that bitch  
She gonna handle this dick  
After that, roll some weed up  
Chill with my feet up  
Ya'll some hand-me-down niggas  
Posted in the car with the top down smokin' on the shit that'll paralyze niggas

Bad bitch come to my crib, handle my business  
Let a nigga know shit's real, handle my business  
Handle my business, nigga, I handle my business  
Handle my business, nigga, I handle my business  
Smokin' pounds of kush, handle my business  
Ridin' in a brand new car, woosh, handle my business  
Handle my business, handle my business, handle my business

High as fuck and it's 28 grams later  
Keep the Ruger, I'mma shoot it in a damn skater  
I'm from the Chi but Atlanta where I'm gonna take her  
If I put her on the corner then I'm gonna break her  
(Make her handle my business, straight up out the trenches  
Young nigga tryna double my digits while I'm kickin' this pimpin')  
Two white cups sippin', ride around piped up gettin' it  
Chain so bright that it might cause tension  
Rock the Benz all Spring, so they know it ain't rented  
Feelin' like a Beatle, god damn, John Lennon  
Put my finger on the trigger, I be sprayin' for a minute  
I tell 'em, wait, wait, let me handle that  
Little steak, Little eggs, let me scramble that  
Two guns, two clips, finna Rambo that  
Tell their hoes I'm bouta fire, where they candles at?  
Where they candles at?  
Cause I be sippin' on somethin'  
Never been a Goofy, shootin' a movie  
Table full of shroomies while I'm rollin' the doobie  
You starin' at me like you wanna hit it or somethin'  
Your bitch lookin' like she want the dinik or somethin'  
I prolly give her the somethin' in addition to somethin'  
Cookin' like I'm in the kitchen or somethin'  
You lookin' broke boy, get you some money  
Donato

Bad bitch come to my crib, handle my business  
Let a nigga know shit's real, handle my business

Handle my business, nigga, I handle my business  
Handle my business, nigga, I handle my business  
Smokin' pounds of kush, handle my business  
Ridin' in a brand new car, woosh, handle my business  
Handle my business, handle my business, handle my business
