

# Wiz Khalifa, Monitored Millions

It's business, man  
Wake up to the business  
You handle yours, I'll handle mine  
At the end of the day, what's done is done  
Uh

Gotta be real, gotta be stackin' dollar bills  
Gotta look out for my team in the field  
Gotta stay fresh like my ideas  
Gotta keep old cars switching gears  
Gotta spit fire for my engineer  
Listen here, the flow sharp like kitchenware  
Different tier, we do our job then we disappear  
Vision clear, money got us on a mission  
They hooked, we supply the addiction  
Only multiply and addition, no division  
Drive the coldest edition, exotic bud twistin', got it out the mud  
Models hoppin' out our showers and tubs  
Dealers be givin' us ounces just because, showin' us love  
50K just to show up in club  
Versace frames, Gucci on the rug  
I own the strain, you just know the plug  
We don't do this for the fame, we doin' it 'cause we really kings  
Well-oiled machines, keep all of 'em clean

Ball 'til you fall  
Don't let 'em monitor your millions, get 'em all  
Gotta stay hands on, heavily involved  
Try to handle your business and stay up out of ours  
Then your problem's solved  
Ball 'til you fall  
Don't let 'em monitor your millions, get 'em all  
Gotta stay hands on, heavily involved  
Try to handle your business and stay up out of ours  
Then your problem's solved

Lifted my low-rider up like Doughboy  
When he caught sight of them niggas fuckin' with his lil' bruh  
What we in it for? Make 'em remember us  
Ten years plus, 10K's a new pair of rims for us  
Come and kick it with some niggas who don't empty guts  
They broke so they envy us  
Laughin' to the bank while these suckers so serious  
You ain't a boss, let me talk to your superior  
Leather interior, bet I don't marry her  
New year, gearin' up for success in different areas  
Niggas was lost, switched the criteria  
Hard not to stare at us  
Think she home, but she here with us  
Gettin' that kush smoke in her hair and stuff  
Thirty thousand feet in the air  
Always been and will be prepared for any affair  
No diamonds in my teeth but that's all I wear  
Solitaires by the pair, been ballin' my whole career

Ball 'til you fall  
Don't let 'em monitor your millions, get 'em all  
Gotta stay hands on, heavily involved  
Try to handle your business and stay up out of ours  
Then your problem's solved

Gotta stay hands on, heavily involved
