

# Wiz Khalifa, On A Plane

One thing's for sure, two things for certain man  
I be on one, Young Khalifa man, burn up

All my nights that I spent on my own tryna find my way  
All the chances we take right or wrong' now we counting all day  
I done been through the pain – seen it all for the fortune and fame  
And did it for a first class flight on a plane

Can you stand the rain?  
Can you niggas really stand the pain?  
Can you stand to sit for 14 hours on the plane  
If you get caught, you'll never smoke again  
I'm leaving niggas with no bitches and cruel intentions  
Make 'em dig in they pockets, makin' 'em pay attention  
I don't gotta talk it cause God I live it  
Say the competition, they all gonna be missin'  
That's part of the mission, we ball and they missin'  
Order all them rooms up, let all of my nigs in  
We hop out them bitches, stay on our toes  
Money over hoes, man that's just the way it goes  
Weed in a bowl, pack shows, me and my bros  
Nominated for Grammy's so, you don't hear me though  
Say that I changed, I just say that I've been laying low  
Try and play your role, that's the way it go  
Ya'll already know

All my nights that I spent on my own tryna find my way  
All the chances we take right or wrong' now we counting all day  
I done been through the pain – seen it all for the fortune and fame  
And did it for a first class flight on a plane

Blacc Hollywood on the way  
... what's up
