

Wiz Khalifa, Something Real

People so used to pain
Why don't we try happiness?
Who knows how far we'll go
Seems like all I see is rain
What if they ain't how it has to be?
Who knows how far we'll go

All I ever wanted was something real
All I ever wanted was something real
All I ever wanted was something real
All I ever wanted was something real

Instead of looking outside
Look in the mirror once
Who knows how much we'll change
Instead of moving off of pride (Without pride)
Do things together once (Do it together)
Who knows how much we'll change

All I ever wanted was something real
All I ever wanted was something real
All I ever wanted was something real
All I ever wanted was something real

Got me sayin', oh
Oh, oh, oh
Oh
Oh
Got me sayin', oh
Oh

I gotta keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real
Keep going, keep going, keep going if you want something real...
