

# Wiz Khalifa, Timeless

Uh, uh, yeah man  
Let me spit somethin' real to you  
Yea hahahah, uh

Just take a look at the way them diamonds glow  
I know why you niggas hate  
You know we get this dough in every way  
And, oh, they chase me down when I'm on the road  
My face is known in every state  
Them bitches fuck me 'cause they know my name

Blunt flickin', gin cup sippin'  
'Nother hundred thousand dollar mission, I be  
Out of reach, check your time piece  
Shorty got that look of love, and I'm I-Z  
Nothin' like them other lil niggas, I'm me  
Keep a couple rowdy cuz niggas by me  
And I'm on a good weed diet  
As a young'n I was told that if you can make the plane, go fly it  
In another lane, so these lames wan' try it  
And bitches' all the same, they just wanna fuck the pilot  
My change get me brain  
Chain start a riot, what you hot for?  
Used to be ballin' my nigga, so what you stop for?  
I'm top floor, blowin' by the O-bama  
And security don't give me no drama  
I'm lookin' for Impalas while I'm drivin' 'cause I'm prolly gettin' high  
And you hatin' on me prolly cause I'm fly, die

Just take a look at the way them diamonds glow  
I know why you niggas hate  
You know we get this dough in every way  
And, oh, they chase me down when I'm on the road  
My face is known in every state  
Them bitches fuck me 'cause they know my name

Yeah, wear your seat belt, you gon' need help  
To these niggas I'm Neil, on them bitches I'm Lee Phelps  
My jeans fit, I don't need belts  
Still spending grands, just to hold up my pants  
Tats in my skin, neck, face, and my hands  
OZ's on the road, Kush roll when I land  
Takin' shots, writin' Taylor Gang in the sand  
And everywhere I go, hoes know I'm the man  
A superstar, you niggas are livin' street dreams  
I'mma call all my haters and form a street team  
See, I'm that level of greatness, you somewhere between  
And I've been gettin' this cake since I was a preteen  
And my swagger is peaking  
Nigga, look at my watch, your shit is peeking  
Your emotions are leaking  
You niggas jealous, I can smell it  
Swag

Just take a look at the way them diamonds glow  
I know why you niggas hate  
You know we get this dough in every way  
And, oh, they chase me down when I'm on the road  
My face is known in every state  
Them bitches fuck me 'cause they know my name

Got her goin' nuts like a nigga never ever knew her  
Rollin' with a star, need a dime lookin' Hollywood  
And I be off some shit that have me high, prolly off some Kush

Too many numbers in my phone, copped a few, another few  
Because she know my name, she know you're lame  
She fuck me 'cause she know a nigga Taylor Gang  
Every time on the road she showin' love in every way  
Always with the baddest bitch that show me love in every way  
Party in my hometown, feel the breeze in every state  
Boy she got a booty on her, looties all up out of state  
I been on this fly shit, the shit that niggas try, boy  
Up in niggas' plans, why you niggas tryna fly, boy?

Just take a look at the way them diamonds glow  
I know why you niggas hate  
You know we get this dough in every way  
And, oh, they chase me down when I'm on the road  
My face is known in every state  
Them bitches fuck me 'cause they know my name
