What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
Then we gon' hop out spend it all jump back in
Then we gon' hop out spend it all jump back in
Then we gon' hop out spend it all jump back in
Then we gon' hop out spend it all jump back in

Why you tryna smoke like me?
When you know you can't hide that I'm a muthafuckin' G
I be up in the Sky you ain't nothing like me
I be smoking and riding down the muthafuckin' street
I ain't ducking and hiding letting everybody see
I'm lookin' out to supply I got what everybody need
And when they tryna find it I'll be there without key
I don't even know why you tryna be like me

Spend that once nigga do it again
Already made it I'ma prove it again
Play this game yea I'm playing to win
All these chicks in my bed
All this piff in my head
All this getting this bread
All these niggas upset wishing it was them instead
But it's me
Lighting another joint for my enemies
Another 100 million for my friends to see

What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
Then we gon' hop out spend it all jump back in

Blow it by the pound when no one around
Only when it counts hit me 'fore you bounce
Got a large amount
Never put it out never coming down never on the ground
Ever lost a gram I'm the one that found it
You can roll a jay you can roll an ounce
You can roll the whole thing fuck it dawg I don't even count
Used to be the youngest nigga in the city buying trees
Now I'm looking like the boss and I run the town

What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
What we doing? Rolling up smoking baby
