

# Working Title, Under The Ground

(Verse 1)

Maybe everyone's to blame  
'cause I can't fall in love to save  
All the world or anyone else  
Turn on the TV and fade

(Pre-chorus)

Maybe it's only me

(Chorus)

Talk to me now  
Why do you run from me  
Walk up to me  
Like we've never met  
Break into me  
I need you more than you know  
Oh no, I'm under the ground

(Verse 2)

Tell me if you want to be

Lonely or if there should be  
Someone else tell me it's me  
Let's run away in the rain

(Pre-chorus)

(Chorus)

(Bridge)

My parts are falling out it's useless  
No one can save me now I'm under  
Somebody's painted house I hear their  
Surrounding voices fade when I decide to stay

It's four in the morning  
I'm naked and staring at the wall  
In my lonely apartment room  
And I'll swear to your beauty  
I'm sorry that I'm so messed up  
Don't hate me  
When I'm under the ground
