

# Wrinkled Fred, Get wiser

Leave!

The destruction way you follow

It will lead you astray

Open yourself! The perception's gift you ought to take

Try not to listen when you hear life's a bitch

Get wiser! Show them what you've got!

'You live in peace I live in pain'

Is that all you've got to say

All mistakes you use to make

Will come back and strike again

Ever thought of changing your point of view

Enough of putting yourself enough seeking the truth

World's a friend through it may seem strange

Happiness is not out of your range
