Wynn Stewart, Wall To Wall Heartaches

In this day and time love don't last too long
And I lost you the day that he came along
I guess that he loves you but I love you too
And I've got wall to wall heartaches next to you

I've got wall to wall heartaches in this room that's missin' you
And everything in it is crying for you too
While you're out there happy I walk these floors over you
And I've got wall to wall heartaches next to you
(steel - fiddle)
Even when you did me wrong I loved you all the while
It seems true love's old fashion and it's going out of style
You promised me happiness what you said you never do
And I've got wall to wall heartaches next to you

I've got wall to wall heartaches...
